Being a Carer can often affect your own health.

By letting your GP surgery know that you are caring for someone could help your GP offer you better support.

A carer is someone who, without payment, provides care and support to a relative, partner, friend or disabled child who cannot manage without your help. As a carer your health is as important as that of the person that you care for, as it ensures that you can continue to carry out your caring role.

Its is important that you visit your doctor regularly and that you tell your doctor that you are in a caring role.

The Beacon Health Group can help with:

- ❖ Specialist advice & information
- ❖ Home visits offering one to one support
- ❖ Practical help with completing forms, gaining benefits, grants & other funding and more.

Please complete the attached form & return to the surgery or download the form from our website.

Please advise The Beacon Health Group if you are a carer so we can update your records

Please complete the below and return to one of our receptionists as soon as possible:
